Superior Image Quality Meets Frameless Elegant Design

Inspired by millennia of artistic legacy, the new VX239H sports an elegant and precision-crafted sundial design. The VX239H features an edge-to-edge frameless panel with 178° ultra-wide viewing angle AH-IPS A+ panel for incredible visuals. It's ultra-slim and ergonomic design can be tilted to provide you comfortable viewing experiences, while dual HDMI/MHL ports offers extensive connectivity options.

VX239H is 14.5mm at its thinnest point

The VX239H features an edge-to-edge, frameless screen – with bezel thickness of just 0.8mm.

Extensive Connectivity and Built-in Stereo Speaker for Multimedia Enjoyment

VX239H comes with rich connectivity including dual HDMI/MHL ports and D-sub so that users could easily share and view MHL mobile devices* content on a much bigger screen, as well as charging MHL devices simultaneously. Also connect VX239H with Full HD Blu-ray Disc players and myriad HD playback devices like DVD players and set-top boxes for limitless entertainment and multimedia enjoyment with the built-in stereo speakers.

Vivid, lifelike visuals

The latest IPS technology with 178。Wide-view angles

VX239H features a 16:9 aspect ratio LED-backlit AH-IPS A+ panel with a 178° wide-view angle that minimizes color shift on both horizontal and vertical planes to ensure quality visuals from almost any direction. AH-IPS is the latest in IPS technology – delivering improved color accuracy plus increased energy efficiency.

80,000,000:1 ASUS Smart Contrast Ratio

With ASUS Smart Contrast Ratio (ASCR) of 80,000,000:1 and 250cd/m² brightness, VX239H augments display contrast and sharpness by adjusting backlighting luminance to achieve the deepest blacks and brightest whites for truly lifelike visuals

ASUS-exclusive VividPixel Technology

The VividPixel Technology enhances outline, sharpness, and color saturation of images and videos to deliver high-quality visual experience.

Without VividPixel

With VividPixel

Monitor without VividPixel

- Image quality mainly depends on panel itself
- Blur happens if original quality of an image is bad
- Usually people don't notice this detail because no comparison was made

VX series - IPS panel incorporated with VividPixel

- IPS panel known for its excellent image quality
- VividPixel default at 25 automatically fine-tunes image quality
- See more differences by choosing among 5 options in VividPixel setting

Splendid™ Video Intelligence Technology

The exclusive Splendid Video Intelligence Technology optimizes video performance and image fidelity by enhancing color, brightness, contrast, and sharpness. 6 preset video modes (Scenery, Theater, Game, Night View, sRGB and Standard) can be selected via a hotkey.

To deliver a more comfortable viewing experience, ASUS Eyecare monitors adopts Flicker-Free Technology to clear out the distracted flicker shown on the screen and help reduce eye fatigue for long-period watching.

Conventional monitors without the flicker-free technology

QuickFit Virtual Scale (patent-pending) for true what you see is what you get

ASUS includes its exclusive QuickFit Virtual Scale feature with the VX239H, allowing you to preview photos and documents on-screen in their actual size prior to printing. It can be activated via a monitor hotkey, and serves as a highly useful guide to accurately view and edit photos in their native size.
